

Student: \_\_\_\_\_

1. Šta je izlaz iz sledećeg Python programa:

```
for x in [1, 2]:
    for y in (3, x, x + 1):
        if y >= 2:
            print x, y
```

Izlaz:

2. Šta je izlaz iz sledećeg Python programa:

```
total = 0

def sum1(n):
    total = 0
    for i in range(n):
        total = total + i
    return total

def sum2(n):
    total = 0
    for i in range(n):
        total = total + i
    print total

print sum1(5)
print total
print sum2(5)
print total
```

Izlaz:

```
print sum1(5)  _____
print total   _____
print sum2(5) _____
print total   _____
```
